Adoption Application Process

PP will review each adoption application and will interview each applicant, by phone or in person. If the prospective adopter is a likely fit for a particular cat, we will arrange for a meeting with the cat. Our goal is to place each cat and kitten with the adopter who is the best fit. At times, we have more than one qualified applicant interested in adopting a particular cat or kitten. To determine the best placement, we consider a number of factors, including, but not limited to the following: whether a kitten will be adopted with another kitten or alone; other pets in the household; special needs of the particular cat or kitten; and experience of the adopter. If, after meeting the cat, the prospective adopter wants to proceed, our foster coordinator and the foster parents will consult to determine next steps.

_____ Initial

Adoption Fees

Our adoption fee is \$80 per cat or kitten. All fees are applied to the charitable purposes of rescuing, vetting, caring for and placing cats and kittens.

_____ Initial

Animal Health

We do our very best to provide the healthiest animals possible however there may be some undetected or underlying illness that may manifest themselves at a later time and may possibly infect other resident household pets. Also stress from coming to an adoption event, a car ride & introduction to a new environment can cause the animal stress & sickness.

_____ Initial

Returning Adopted Animals

Although we hope to place our animals in the best homes possible, we understand that situations can change or that the animal may not be the right fit. We do ask to be involved in the decision to determine if the adopted animal(s) should be put back into our rescue, prior to rehoming with a friend, family or shelter no matter how long post adoption. This assures us that the animal will be transferred to a safe environment. Adoption fees will be reimbursed at the full amount within 2 weeks of the adoption.
